Download: Autodesk 2027 Software Packages

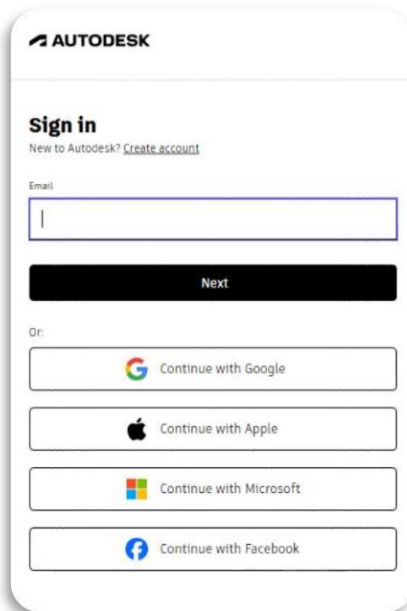

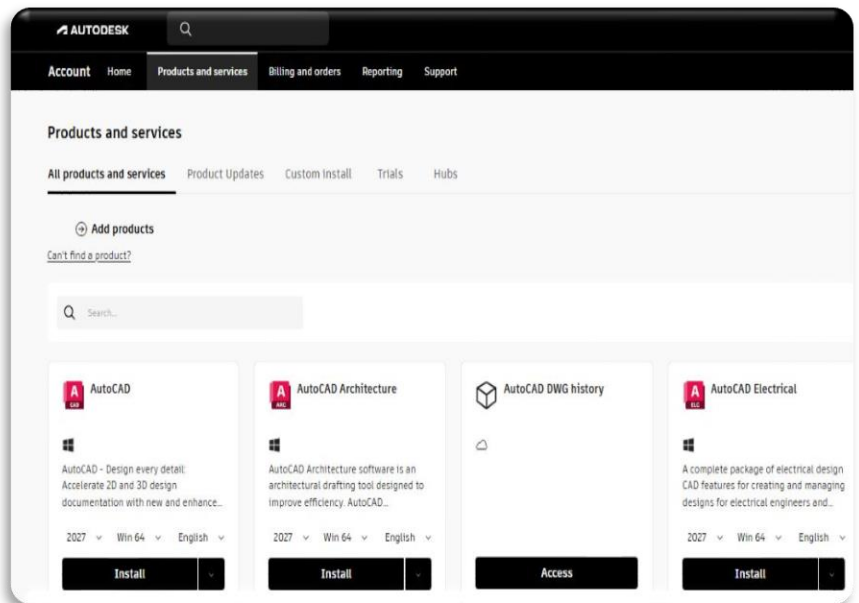

Please use your browser to access the following site:

<https://manage.autodesk.com/>

Prerequisites

- Ensure that your computer meets your purchased software's minimum specifications
- Ensure you have enough hard drive space for the product you have purchased
- Please note this is a fresh install. Kindly uninstall other versions of the software

Account Guide

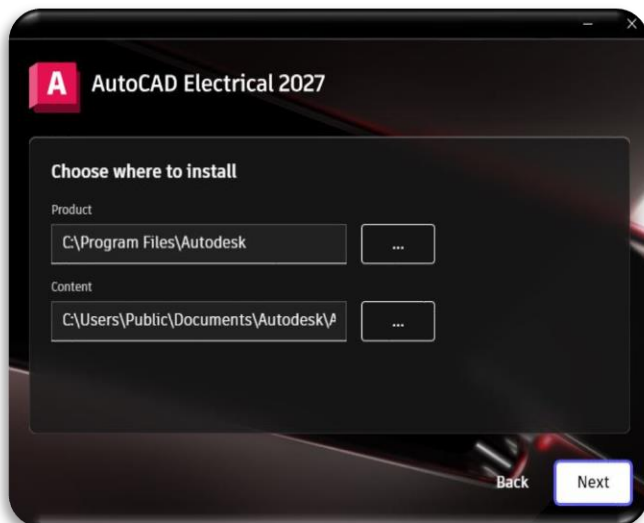

- ❖ If you have an Autodesk account please sign in
- ❖ Alternatively create a new account
- ❖ Go to the Products and Services tab
- ❖ Locate the product you have purchased
- ❖ Ensure the correct year version, Windows version and language are selected
- ❖ Use the drop down arrow next to Install to download

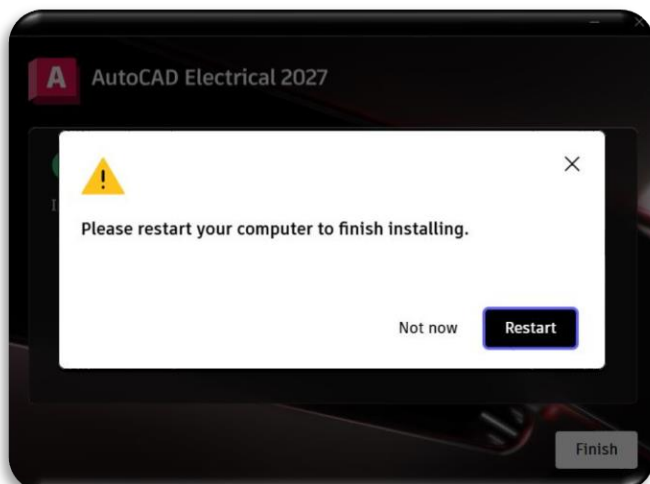

Install Guide

- ❖ Click the file you have downloaded, located in your Downloads folder
- ❖ Let the Create Installer run. Please note this may take a while based on your computer specs
- ❖ When completed you will see the above screen
- ❖ Click on Run Installer to proceed with installation

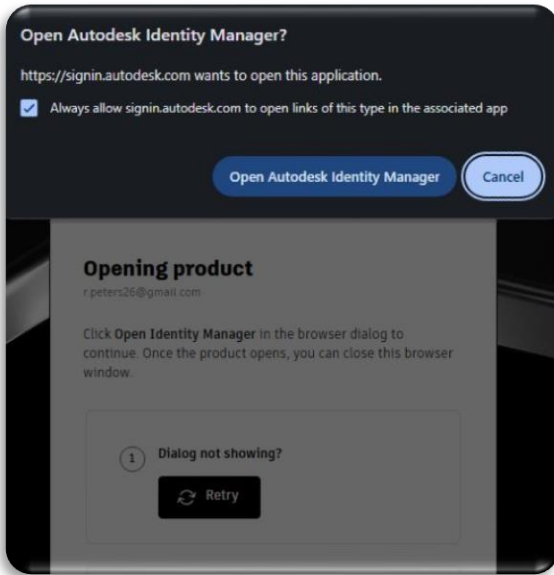

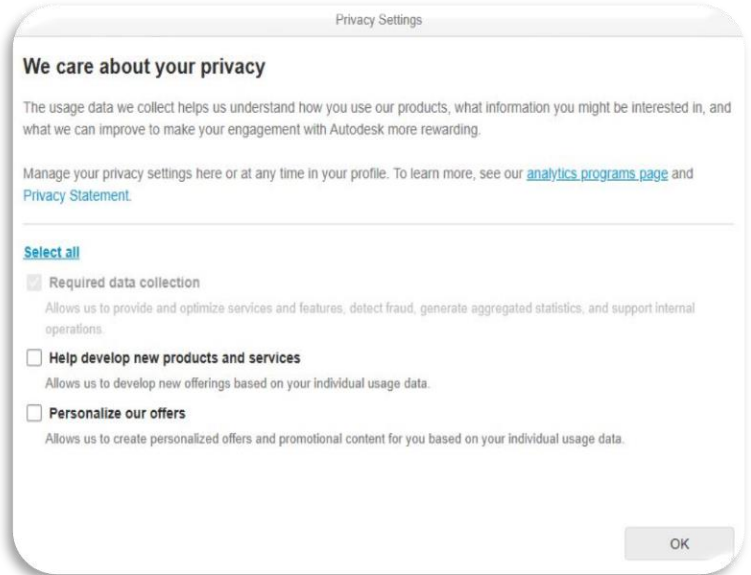

- ❖ Choose where you would like the program to be installed
- ❖ Allow the program to complete its installation

- ❖ You may need to restart your computer to complete the installation

Setup Guide

On PC startup, double click the icon of the program you installed. It will be on your desktop.

- ❖ On startup, you will be need to select Sign In With Your Autodesk ID
- ❖ This will open your browser where you will sign in with your account you created or already own
- ❖ After sign in, please select Open Autodesk Identity Manager
- ❖ This will go back to your opened software
- ❖ Tick your selections at the lower part of the screen and click OK
- ❖ Your software is now ready to be used

Troubleshoot

- The speed of the install is determined by your computer specs
- Should you encounter an error, please screenshot this in your correspondence to our Support team
- Please ensure your computer is fully updated with regards to Windows updates
